Resources for guidance professionals working with refugees #StandWithUkraine

February 24, 2023

Career guidance professionals and services across Europe have long been supporting and advocating for migrants and refugees to gain new perspectives in education and on the labor market, after critical disruption to people's careers and educational pathways.

The full-scale war of aggression by Russian forces on Ukraine has so far spreading death and destruction in Ukraine. It is not only an attack on innocent people; it is also an attack on the education, society and institutions of the country. Read more on the **one year of Ukrainian resistance**.

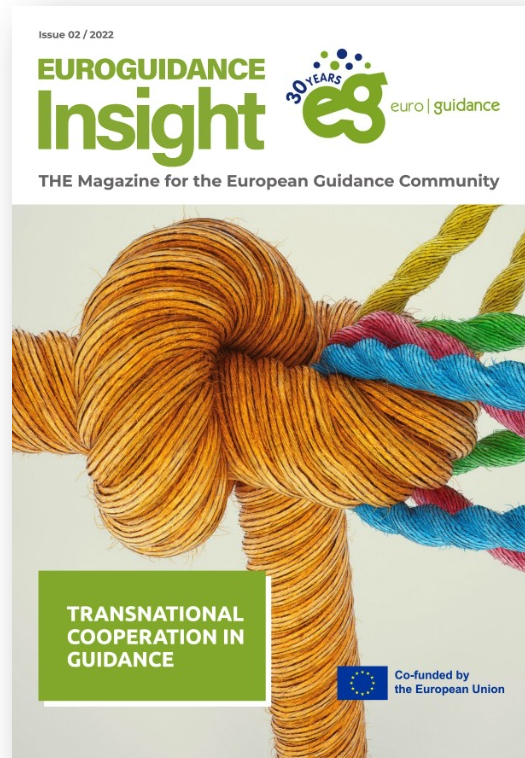

The Euroguidance network has updated the list of articles, resources and tools that might be of help to the guidance community in supporting the newly arrived.

Information by the European Commission and UNHCR

- **EU Solidarity with Ukraine** - The EU and its international partners are united in condemning Putin's aggression on Ukraine. We will provide support to those seeking shelter and we will help those looking for a safe way home. The EU will continue to offer strong political, financial and humanitarian assistance to Ukraine and impose hard-hitting sanctions against Russia and those complicit in the war.
